1

## Introduction

Thank you for purchasing The Viva, This is an advanced OLED display aromatherapy device with full temperature control(300°F – 435°F) for vaporizing herbs. The Good Thermal Performance Metal or ceramic Heating Chamber and Acrylic Mouthpiece make the vaporizer process exceptional and drive the desired effect by baking than combustion. Which instantly destroy the key elements found in various herbs and releases a multitude of new chemical compounds. We hope you enjoy the quality and performance of your new Viva vaporizer.
